We strive to provide you with a comprehensive employee benefits program as part of your overall compensation package.

We put together this guide to help you understand your benefits and to help you get the most out of them. We encourage you to review it thoroughly so you can identify which offerings are best for you and your family.

If you have questions about your benefits, reach out to Human Resources or use the contact information included in this guide to get the answers you need.

This Employee Benefits Guide is designed to provide information about the benefit plans and programs offered by our organization during the plan year listed on the front cover. It does not detail all of the provisions, restrictions and exclusions of the various benefit programs described herein. This booklet does not constitute a Summary Plan Description (SPD) or Plan Document as defined by the Employee Retirement Income Security Act (ERISA). If there is a conflict between this document and the SPD, the SPD shall prevail. The SPD is available from our Human resources department.

HEALTH SAVINGS ACCOUNT TIPS

A Health Savings Account, commonly referred to as an HSA, is a bank account that may be funded with tax-exempt dollars. The money in an HSA may be used to pay for unreimbursed medical expenses on a tax-free basis. You must meet the qualifications defined by the IRS in order to open or make contributions to an HSA.

HELPFUL HINTS: DOCTOR'S OFFICE AND PAYMENT

- SHOW YOUR HEALTHCARE CARD.
- Review your Explanation of Benefits from your health insurer and utilize on-line system to follow your claims (deductible satisfactions and out-of-pocket maximum).
- Compare your health provider invoice to the Explanation of Benefits from your health insurer to ensure that you accurately pay the health provider. Any charges from your in-network health provider above the amount stated on the Explanation of Benefits should be reimbursed to you by the health provider directly.
- Utilizing an in-network provider entitles you to a discounted rate and that any applicable amounts paid to the provider are credited to your deductible and maximum out of pocket limits on your health plan.
- If you have a medical expense early in the year that is more expensive than the total of your HSA bank account, you will need to pay that amount from your personal checking account. However, you can reimburse yourself once the funds accumulate in the HSA account. Keep in mind—you can always place expenses on a credit card or attempt to establish a payment plan with the provider.

QUESTIONS TO ASK THE DOCTOR

- Understand your diagnosis/condition—Discuss openly with your physician.
- Is there a generic prescription equivalent that will work just as well?
- What can I be doing in terms of prevention/wellness?

OTHER REMINDERS

- This is YOUR MONEY—spend it wisely.—Each carrier has on-line cost comparison.
- You own this account—not your employer—it will go with you wherever you go.
- Make sure you carry the debit card/checks with the health ID card.
- Utilize your preventive/wellness benefits annually.
- Check Wal-Mart, Sam's, Publix and Target for their discounts.
- Check MyFloridaRX.com for retail prices of drugs in your area.
- You will need to use your HSA debit card (and SHOW YOUR I.D. CARD) at the pharmacy—you will not be billed later as may be the case with your doctor.
- Check out the list of eligible expenses—while some don't apply to your health plan deductible, you can use HSA monies for many other medical, dental & vision expenses.
- As with anything, keep receipts and maintain a medical file!

FIGURING HSAS OUT FOR YOUR SITUATION

- How much did you spend on medical expenses last year (copays, deductible, Rx)?
- How much were your premiums for the year?
- What is the worst case scenario for a calendar year? What about the best case scenario?
- Keep in mind any pre-tax benefit or tax deduction and interest and possible investment options savings/earnings with your HSA.

HEALTH SAVINGS ACCOUNT TIPS

CONTRIBUTIONS

- In 2024, you may have a total annual deposit of \$4,150 for individuals and \$8,300 for individual + dependent(s) enrolled in the HSA plan.
- In 2025, you may have a total annual deposit of \$4,300 for individuals and \$8,550 for individual + dependent(s) enrolled in the HSA plan.
- Any amount funded in previous year and unused will be available for use in future years.
- If you are over 55, you can contribute an additional \$1,000 each year

DETERMINING YOUR CONTRIBUTION

- Your eligibility to contribute to an HSA for each month is generally determined by whether you have a High Deductible Health Plan/HSA Compatible Plan (HDHP) on the first day of the month. If you or a dependent enroll in a non-HDHP, such as, Medicare, Veteran's Benefits or another health plan that does not qualify as the government's definition of an HSA compatible plan, you can no longer contribute to the HSA bank account. Your maximum contribution for the year is the greater of: 1) the full contribution, or 2) the pro-rated amount. The full contribution is the maximum annual contribution for the type of HDHP coverage you have times the number of months you have that type of coverage. If your contribution is greater than the pro-rated amount, and you fail to remain covered by an HDHP for the entire following calendar year, the extra contribution above the pro-rated amount is included in the income and subject to an additional 6 percent excise tax.
- Examples: If you first have family HDHP coverage on July 1, 2024, and keep HDHP coverage through December 31, 2024, you are allowed the full \$8,300 family contribution to an HSA for 2024. If you fail to remain covered by an HDHP for all of 2024, \$4,150 would be included in income and subject to an additional excise tax.
- If you have family HDHP coverage from January 1, 2024, until June 30, 2024, and have self-only HDHP coverage from July 1, 2024 to December 31, 2024, you are allowed an HSA contribution of $6/12 \times \$8,300$ plus $6/12$ of \$4,150 or \$6,225 for 2024.
- Contributions can be made as late as April 15th of the following year.

YOUR HEALTH SAVINGS ACCOUNT MAY REIMBURSE

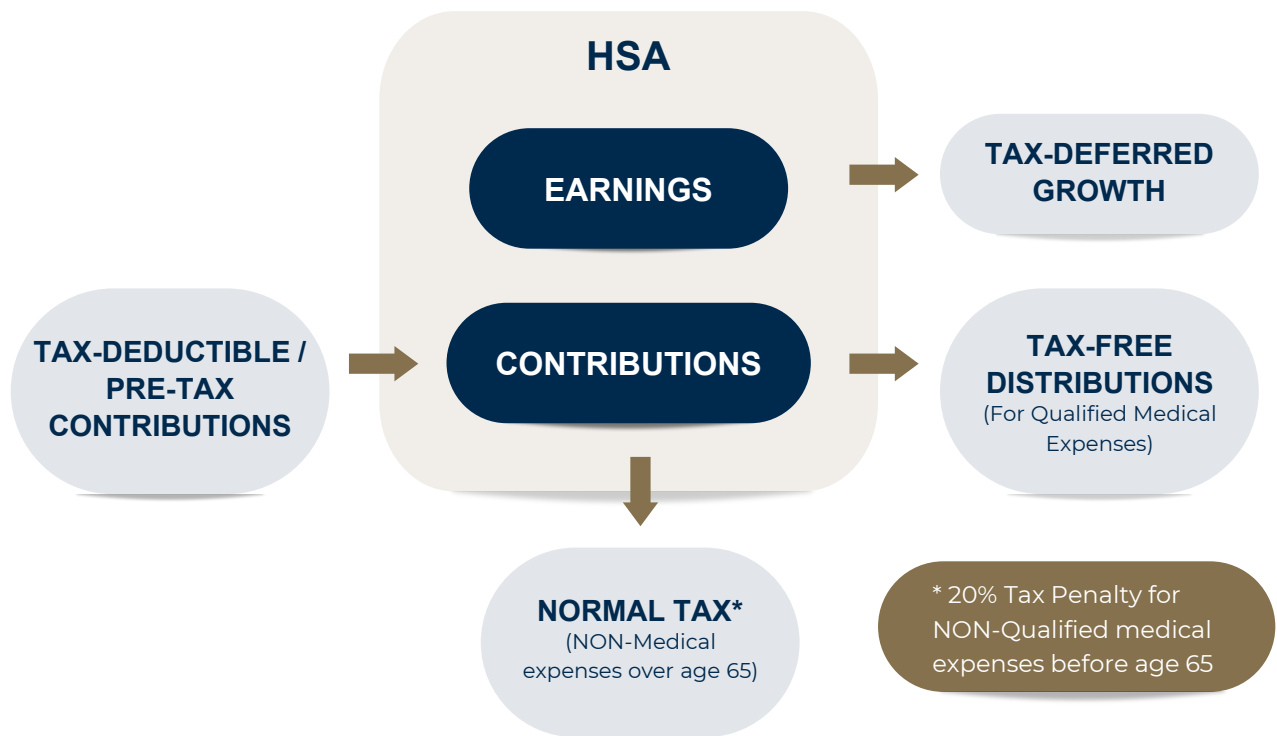

- Qualified medical expenses incurred by the account beneficiary and his or her spouse and dependents;
- COBRA premiums;
- Health insurance premiums while receiving unemployment benefits;
- Qualified long-term care premiums*; and
- Any health insurance premiums paid, other than for a Medicare supplemental policy, by individuals age 65 or older.
- Distributions from an HSA to reimburse the account beneficiary for eligible expense are excluded from gross income.

Please note that ONLY employees who enroll in the HSA-COMPATIBLE plan are eligible to open an HSA. Employees who enroll in the traditional copay plans are not eligible to open an HSA.

Also, you cannot simultaneously have a medical FSA and an HSA. If you elected a medical FSA for the prior plan year, you can only open an HSA on September 1st if your FSA balance is ZERO (meaning nothing can be left in the account during the grace period); if you have any FSA balance, you must wait until next year to open the HSA. The dependent care FSA is not tied to your medical plan or HSA.

HSA CALCULATOR

- Consider your own situation
- How much are you spending TODAY, as a payroll deduction for your CURRENT PLAN?
- If you switched to the HSA plan, covering the same dependents you do today, what would your payroll deduction become?
- Consider only placing THAT SAVINGS into the HSA bank account – remember, you own and control it; and it rolls over from one year to the next
- If you only contribute the savings from the new HSA plan premium over the premium you pay today, then you'll have NO additional money coming out of your paycheck.
- What are your out of pocket expenses for health care?
- What's your estimated overall savings, and what's your worst case scenario?

Example: The below example is based on an employee who is married with one child that is deciding between a non-HSA and an HSA-compatible plan. The example first compares annualized premiums; then assumes 3 doctor visits per year, per person (1 preventive/free, 1 primary sick visit, 1 specialist); then assumes 2 tier 2 prescriptions per person; and finally calculates HSA contributions and tax savings.

FINANCIALS	HSA PLAN	HIGH PLAN
A. Annual Premium	\$3,284	\$6,240
B. Annual Deductible	\$7,000	\$4,500
C. Annual Max out of Pocket	\$14,000	\$9,000
D. Your usage last year for 3 people (3 Drs: 1 is prev; 1 is PCP, 1 is spec)	\$750	\$255
E. Your Rx copays (Tier 2 x 2 monthly x 3 ppl)	\$3,744	\$3,600
F. Pretax savings (assume contribute allowable max of \$7200; 25% tax bracket)	-\$1,800	N/A
G. Company Contribution	-\$1,200	N/A
COST: Add A+D+E then subtract F & G	\$4,778	\$10,095

****SAVINGS OF \$5,317**

Remember to calculate your specific tax savings based on your annual contribution to the Health Savings Account and interest accrued on bank account. Also remember all qualified medical expenses will be tax free when paid for out of HSA.

FLEXIBLE SPENDING ACCOUNT

AMERIFLEX

Flexible Spending Accounts (FSAs) enable you to put aside money for important expenses and help you reduce your income taxes at the same time. The City offers two types of Flexible Spending Accounts—a Health Care FSA and a Dependent Care FSA. These accounts allow you to set aside pre-tax dollars to pay for certain out-of-pocket health care or dependent care expenses. Both plans are administered by Ameriflex.

HOW DO FSAs WORK?

Plan	Annual Maximum Contribution	Example of Covered Expenses
Health Care Flexible Spending Account	\$3,200	Copays, deductibles, orthodontia, etc. *
Dependent Care Flexible Spending Account	\$5,000 (\$2,500 if married and filing separate tax returns)	Day care, nursery school, elder care expenses, etc. *

Each year during open enrollment, you decide how much to set aside for health care and/or dependent care expenses based on your projected costs for the year. Your contributions are deducted from your paycheck on a before tax basis in equal installments throughout the calendar year. As you incur health care expenses, you can either pay out-of-pocket and submit a claim form for reimbursement, or you can use your debit card to pay out-of-pocket and submit a claim for reimbursement. The debit card cannot be used for dependent care expenses.

**See IRS Publications 502 and 503 for a complete list of covered expenses at www.irs.gov/publications/p502*

WHAT IF YOU CURRENTLY HAVE AN FSA WITH FUNDS AND DECIDE TO MOVE TO THE HSA PLAN?

You cannot simultaneously have a traditional FSA and HSA; so the best option is to fully use all your FSA funds prior to opening the HSA account. Alternatively, you can move to a limited purpose FSA (dental/vision).

WHAT IF I HAVE MONEY LEFT OVER AT THE END OF THE YEAR?

You are able to rollover a maximum of \$640 of remaining funds into plan year 2024-25.

WHAT IF MY EMPLOYMENT TERMINATES MID-YEAR?

You may submit a claim for reimbursement of eligible healthcare expenses which were incurred during the plan year of termination, as long as those expenses were incurred prior to the date of your termination within 30 days of last day worked. COBRA requirements may apply to the Health Care Spending Account.

You may submit a claim for reimbursement of eligible dependent care expenses incurred during the year, including expenses incurred after your termination date, against the balance in your account when you leave employment.

If you want to enroll in the Medical or Dependent FSA for 2024-25 plan year, you must complete a paper enrollment form and return to Human Resources by the 15th of the month prior to your election date. For example, 9/15/24 for annual open enrollment. Any current elections will not roll-over to the following plan year.
